

# ENTRY-GUARD™ (P/N: ETG-ML2)

Entry-Guard™ magnetic lock. Surface mount to double door frame and doors for basic swing-out applications. When voltage is applied magnet provides 1200 pounds of holding force to keep door closed.

- Magnetic lock keeps double doors locked until power is removed to unlock
- Provides cost effective and reliable access control where secure access is required
- Safe low voltage input power 12-24 VDC

Specifications	
<b>Outside Dimensions (Magnetic lock)</b>	A = Width: 21.00" [533.7mm]
	B = Height: 2.90" [73.6mm]
	C = Depth: 1.60 [40.6mm]
<b>Outside Dimensions (Striker plate qty 2)</b>	D = Width: 2.38" [60.4mm]
	E = Height: 7.19" [182.6mm]
	F = Depth: 0.64" [16.26mm]
<b>Mounting Pattern</b>	Various mounting brackets and options
<b>Input Voltage</b>	12 VDC / 24 VDC
<b>Current Draw</b>	0.5 amps / 0.25 amps
<b>Weight</b>	18 lbs [8.16 kgs]
